AT120/145. 006

This technical drawing shows an exploded view of a mechanical assembly. The main component is a long, cylindrical shaft with a series of rectangular blocks mounted along its length. At the left end, there is a large, circular flange or pulley. At the right end, there is a smaller, circular flange or pulley. The assembly is shown in a perspective view, with the shaft and blocks arranged diagonally. Ten numbered callouts (1 through 10) are used to identify specific parts: 1 points to the main shaft; 2 points to the large flange at the left end; 3 points to the small flange at the right end; 4 points to a small circular component near the right end; 5 points to a small circular component near the right end; 6 points to a small circular component near the right end; 7 points to a small rectangular block; 8 points to a small rectangular block; 9 points to a small rectangular block; and 10 points to a small rectangular block.
